

## RESORTS MANAGEMENT - Mauritius • Courses in French and in English

The goal of the *Resorts Management* specialization is to educate managers / directors who are aiming to work in structures that have, besides traditional departments, spas, golf courses, casinos, leisure activities, theme parks, etc. Mauritius enjoys an attractive touristic environment and provides a hands-on experience in seaside and other types of resorts. Managing a resort requires understanding and controlling a complex organization with constraints that are sometimes increased because of its location (in a desert, savanna, on an island, in the middle of a city, etc.). This specialization will allow students to understand the operational, financial, and strategic logic of each type of entity. Courses are given in Mauritius in English and in French.
