

FINANCE & PROJECT DEVELOPMENT - Martigny (Switzerland) • Courses in English

To create, manage, and sustain your personal project, or be able to consult and make sound decisions with financial investors, is the key to success for any company regardless its size.

Develop your project, convince investors, understand all financial mechanisms, these are the challenges that leaders of tomorrow must be able to do. The *Finance and Project Development* specialization enables students to further enhance such competencies.

Highly qualified and experienced professors from well recognized schools, partnerships with renowned institutions from the Swiss tourism sector, and real case studies from professionals within the industry, will provide you the tools that allow you to quickly climb the ladder within management functions or in enterprise consultancy.
